DESKS.....

JERA

Elevate Your Realm

Wood and leather characterise the structural elements, creating a clear distinction from the working surfaces.

An aesthetic and tactile effect, precious and sophisticated.

Jera is the executive office furniture system that combines elegance and functionality. Characterized by modern lines. It offers a refined and professional work environment.

Featuring a deconstructivist style, it is synonymous with innovation in contemporary design

IMPERIAL

Command Your Space with Imperial Elegance

An executive office with strong visual impact, designed for dynamic and efficiency-oriented executives.

Here, large wooden surfaces are highlighted by a light edging of the black aluminium top that outlines the surface against the structure.

NEXUS

A modern office desk setup. The desk is made of light wood and white. On the desk, there is a silver desk lamp, a small vase with flowers, and some books. Behind the desk is a white ergonomic chair. To the right of the desk is a wooden bookshelf with books and framed pictures. The background is a large window showing a desert landscape with cacti and mountains. The word "NEXUS" is written in large white letters on the wall behind the desk.

NEXUS

A Quiet Nook, a Boundless Mind

Nexus confirms itself today as an increasingly versatile and complete program,
capable of customizing spaces and easily adaptable to both
work environments, contract and home offices.

With essential lines, the Nexus is characterized by a top and a wooden
structure in various thickness.

It is available in various versions, each accompanied by elements that make
it extremely functional for different needs

DOMINUS

Leading the way in style and function.

Executive collection where the worktop integrates with the structural base which also has a storage function.

The only finishing features are the tops and doors of the drawer unit.

Available in various finishes with a sleek single-color frame. 45° junction for a seamless look.

Options include built-in drawers or a free-standing service unit. Wired beam for cable management. Storage units with sliding or hinged doors and soft-closing wood doors.

REGAL

REGAL

Work with Regal Confidence

Enhance your workspace with this Regal executive desk

featuring a spacious desktop, sturdy metal legs, and an ergonomic design.

The integrated side cabinet offers smart storage, keeping essentials organized. A perfect blend of style and functionality

MARS

Woody.....

The MARS Return Desk embodies the elegance of minimalist design through geometric forms and sleek lines.

Available in Left or Right side configurations, it features lockable storage, drawers with soft-close slides and hinges, and an integrated power socket to meet modern workspace needs.

The signature groove handle adds a refined touch, while the bold, angular silhouette enhances its strong visual impact.

Customize with any two-color combination to perfectly complement your office environment, blending functionality with sophisticated style.

FLEXI

FLEXI

Elevate Your Workspace, Effortlessly

Experience seamless adjustability with Flexi Desk .

Designed for comfort and productivity, this height-adjustable desk adapts effortlessly to your needs, creating the perfect workspace

BASIC Series

Desks

Designed For Dynamic Spaces

Elegant and functional, the Basic executive collection takes on the look with the introduction of new materials and precious finishes.

The desk can be with structure, modesty panel and top in one shade. Alternatively you can choose to match modesty panel and top or structure and modesty panel in the same color

Pop Panel stands out for its panel structure, made of 30 mm thick melamine. The modesty panel is an integral part of the structure and contributes to the stability of the workstations, as well as guaranteeing the necessary privacy. The melamine worktop is available in different finishes.

The desks, available in several lengths (120 - 140 - 160 - 180...etc. cm), have been designed to be integrated with extension tops or storage elements, for a workstation where tradition and modernity blend together to create functional environments suitable to support everyday life working activities.

SEATING.....

G 1

The G1 office chair combines advanced technology with modern design to provide reliable comfort and ergonomic support.

Its backrest adjusts to the user's waist depth and height, allowing natural alignment with body movement and posture.

The chair includes a height-adjustable headrest, lifting backrest support, and 3D adjustable armrests for better flexibility.

A sliding seat allows comfortable seat depth adjustment, while a coat hanger and durable A0 base add practicality and stability.

G 2

The G2 office chair is designed for comfort and ergonomic support in modern workspaces.

Its dynamic double backrest with upper and lower shells flexes with the user's movements, providing improved support throughout the day.

The seat depth can be adjusted up to 50 mm, allowing users to find a more comfortable seating position.

A synchronized tilt mechanism enables the seat and backrest to recline at different angles, helping maintain a natural posture and reduce lower back strain.

The wider, softer armrests are adjustable in height, forward, backward, and pivot for better arm and shoulder support.

THIN

Thin Chair features a lumbar-hugging design with a breathable nylon mesh back and fixed lumbar support.

Its one-position locking explosion-proof mechanism and smooth black PU casters ensure stability, comfort, and stress relief.

MASK

Mask Series Chair offers ergonomic excellence with a 2D adjustable headrest, adjustable lumbar support for personalized comfort, and 3D armrests for all-around support—designed to adapt to every user with precision.

BUTTON

Button Series Chair offers essential ergonomic support with adjustable lumbar comfort and a one-touch reclining backrest for personalized positioning.

The 360° rotating armrests provide all-around support, reducing strain on arms and shoulders.

Designed for flexibility and everyday use, Button Series enhances both comfort and functionality, making it ideal for dynamic office environments.

360° Adjustable Armrest

ALLEN

Where minimalism meets ergonomics, Allen is designed to bring comfort and elegance to the modern workspace.

Its sculpted backrest follows a refined arc, creating a light and balanced visual form.

The signature “Smile Curve” lumbar support naturally aligns with the spine, providing gentle support throughout the day.

With its breathable structure and clean contemporary design, Allen delivers lasting comfort while enhancing the aesthetics of any office environment

Inspired by geometric harmony, Bessel reflects the ultimate beauty of balanced curves and refined form.

Rational geometric lines shape a design that is both structured and expressive, bringing a subtle sense of emotion and elegance to the workspace.

With its smooth contours and contemporary character, Bessel combines comfort, functionality, and aesthetic simplicity—creating a chair that supports productivity while enhancing the visual rhythm of modern office interiors.

BESSEL

FLOAT

Sleek ergonomic office chair featuring premium leather upholstery and polished aluminum armrests.

Designed for comfort and support, it includes an adjustable height mechanism and smooth-rolling casters.

Its modern silhouette and refined materials make it ideal for executive offices, meeting rooms, and contemporary workspaces.

SILKY

With its outstanding design and exceptional comfort, Silky blends elegance with ergonomic performance.

The refined intersection of curves and straight lines creates a balanced geometric form, giving the chair a modern and sophisticated character.

Designed for both style and support, Silky enhances comfort while complementing contemporary office interiors.

Designed for versatility and comfort, Arno features a refined mesh backrest supported by a sculpted structural frame that enhances both stability and visual elegance.

Available in low-back and high-back versions, Arno adapts to different workspace needs.

The breathable mesh promotes airflow for long working hours, while the customizable seat cushion colors allow it to blend seamlessly with any office interior, combining ergonomic support with modern design

ARNO

The Stella office chair is designed for comfort, flexibility, and modern workspaces.

It features a breathable mesh backrest with integrated headrest support and an ergonomically shaped seat for daily comfort.

Smooth armrests and a stable base enhance usability, while a low-back version offers versatile seating options.

STELLA

9092

The 909 office mesh chair offers breathable comfort with its ergonomic design, providing superior support for long hours of work. Its adjustable features and sleek, modern look make it a perfect addition to any professional workspace.

9091

Designed for style and comfort, this sleek chair exudes modern elegance. Available in a variety of low-back options, it's perfect for any professional workspace.

K55

The K55 chair combines minimalism with comfort, featuring soft cushions and urethane foam for a luxurious seating experience. I

ts unique design and muted colors enhance any workspace with elegance and sophistication. Perfect for clients seeking both style and comfort.

K40

The K40 chair enhances the K40 Series with high-elastic mesh for superior comfort and breathability.

Its design maintains the understated style while offering optimized seating for extended use, surpassing BIFMA TEST standards for quality and durability.

K30

The K30 chair combines a refined, ergonomic design with weight balance tilting for optimal comfort.

It offers high-quality features at an affordable price, enhancing any office or home with its simplicity, comfort, and functionality.

A perfect choice for a productive working environment.

K20

The K20 chair features a minimalist design with essential functions, including weight balance tilting for automatic adjustment.

It offers mesh or sponge backrest options for comfort and style. Ideal for various spaces, K20 combines function and affordability without unnecessary features or bulk.

CLEAN

Series

Breathable, easy-to-maintain soft finish with balanced comfort and a sturdy, durable hardware frame.

R30

The R30 chair features a simple design with various color options and customizable features, including armrests or armless options and a folding tablet.

Ideal for diverse spaces like schools, offices, lecture rooms, and cafeterias
It offers versatile functionality for any setting.

SYS

The vertical ribs on the surface of the fabric adopt the embossing process, which brings about resistance when touching. The sudden sensation and soft touch bring users a different use experience.

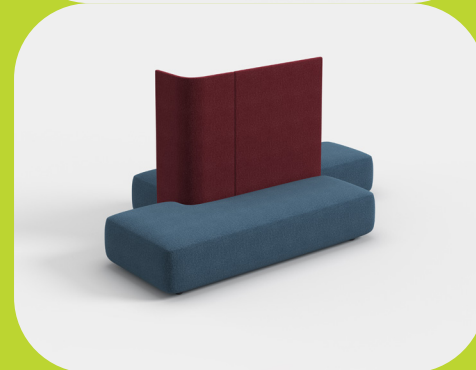

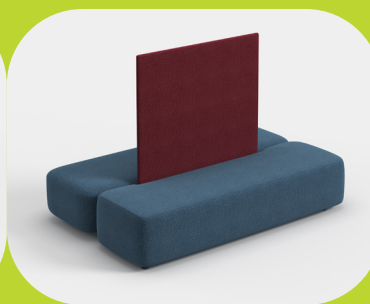

R40

The R40 is a compact, multi-purpose chair designed for efficiency and versatility. Its nesting feature allows for easy storage, making it perfect for team meetings or large assemblies. Offering great value, R40 focuses on its core function at an affordable price.

ABSTRACT Series

Modular design for versatile spaces. Crafted with high-quality, wear-resistant fabric and a dried, insecticidal, mold-resistant wood frame for lasting durability.

PINNACLE Series

Modular design for flexible spaces, with wear-resistant fabric and durable cold-rolled steel legs, crafted through advanced processes for lasting strength and comfort.

JERA SOFA

A comfortable sofa with outstanding proportions, designed for representative spaces of great elegance. Its neat and compact line makes it suitable for any environment, regardless of style. Jera maintains and communicates its distinguished identity.

OASIS

Designed for comfort and durability, Oasis combines refined materials with a strong structural foundation.

Upholstered in premium fabric, PU, or genuine leather, it features high-elastic foam cushioning for lasting comfort.

The solid wood frame with zigzag springs and parallel support lines ensures stability, while the black-coated steel base adds a modern touch of strength and elegance

CALM

Fashion Metal establishment

Simple Square Armrest

Design comes from the change of lines
Through different connection methods
between lines and surfaces showing a beautiful arc
by linear scale

Accessorize with exquisite metal accessories
Both meet the simplicity of the office scene
It also reflects the pursuit of details and quality

LOFT

Fabric finish

Leather finish

The Element sofa emerges from international design classics but reinterprets them in a contemporary language.

It stands out for its comfort, formal lightness, and the chromatic play of the seams on its backrest and the perimeter of the cushions. This precise upholstery work offers differentiation through different fabrics or leathers

ROVELLA

Rovella is a modern seating solution designed to combine comfort, durability, and contemporary style.

Upholstered in PU leather for long-lasting performance, it is suitable for both residential and commercial interiors. Available in multiple sizes and customizable options, Rovella adapts easily to different space requirements and design preferences.

RELAX

A modern classic reimagined for comfort, Relax sofa retains the clean, architectural lines of Relax's original 1954 design, now with deeper cushions and a more inviting feel.

Its timeless elegance and refined silhouette make it ideal for sophisticated interiors

BOUNCE

Bounce is a contemporary lounge seating collection defined by soft curves, generous proportions, and a welcoming form.

Designed to bring comfort and character to modern interiors, it is available in single and multi-seat options with customizable upholstery choices, making it ideal for lounges, reception areas, and relaxed collaborative spaces.

Orion Lounge Sofa

The Orion Lounge Sofa features a modern design with soft rounded arms and slim metal legs, offering both comfort and style for contemporary office spaces.

Ideal for lounges, waiting areas, and collaborative environments, it provides relaxed seating with a clean aesthetic. Available in multiple fabric color options, the Orion Lounge Sofa easily adapts to different interior themes and workspace designs.

REST

Series

With an ergonomic design and breathable soft package finish, REST offers balanced comfort. Its durable frame, crafted from high-quality hardware or wood, ensures lasting stability and support.

LUMA

Bello is a compact lounge chair designed with soft curves, a rounded upholstered form, and a distinctive sculptural character.

Ideal for lounges, reception areas, and hospitality settings, it offers a comfortable seating experience while adding a refined and contemporary touch to the interior, with customizable upholstery options available.

LUMA

Soft arc shape design and delicate fabric texture combine to create a simple, smooth-lined design.

This revolving lounge chair has a star-base and a wide seat providing comfortable seating experience.

AERIS

Aeris is a modern upholstered task chair designed for comfort, style, and everyday flexibility.

With its sculpted wraparound form, supportive seating, and smooth swivel castor base, it fits beautifully in offices, meeting rooms, and collaborative spaces while offering customizable fabric, color, and finish options
